

# Leaders Improving Mathematics Education

**THE BEST  
MATHEMATICAL  
PEDAGOGY & RESOURCES  
FROM AROUND THE COUNTRY**

**NEXT EVENT:  
ED SOUTHALL**

**TUESDAY  
4:30 - 6PM**

**ST WILFRID'S C OF E ACADEMY, BB2 2JR**

**@EDSOUTHALL**

**TARGET AUDIENCE: Secondary**

**JOIN US AS WE EXPLORE:**

**DEVELOPING SUBJECT KNOWLEDGE WITH A SPOTLIGHT ON CONSTRUCTIONS**

*Ed delivers all maths training for primary and secondary PGCE students at a University and has presented at a variety of conferences. He is the author of 'Yes But Why?' and 'Geometry Snacks'. His session will focus on why having good subject knowledge can improve your teaching with some general examples. He will then look at ways to teach constructions in an engaging way for students that really makes them think. The session will be hands-on, providing ideas and practical activities that can be transferred straight to the classroom.*
